

Reduced Tillage Cost-Share Available

The Hawk Creek Watershed Project and Renville County Soil and Water Conservation District are offering a cost-share program for reduced tillage practices in 2022

- Cost-share up to \$20.00/acre to implement no-till and/or strip till (e.g. labor, equipment use), with maximum payment of \$2,000.00 per farmer per year
- Contract is for one year. Maximum of three years of cost-share payments through this program. Must sign a new contract each year
- Cost-share application must be signed and approved before planting takes place
- All invoices and passed field inspection (after spring cash crop is planted) are required before payment is made
- Ineligible for this cost-share if you receive reduced tillage incentive and/or cost-share payment through any other program (e.g. EQIP, CSP)
- Cost-share available to producers in the Hawk Creek Watershed (covering portions of Chippewa, Kandiyohi, and Renville Counties) and all of Renville County. See map on other side of this page
- If all above terms and conditions are not met/followed, payment will be disqualified
- For more information, contact:
